## 1. Introduction

Welcome to TokenGlade, an innovative blockchain platform designed to simplify and revolutionize the creation and management of Stellar digital tokens. Built on the robust and efficient Stellar blockchain, TokenGlade aims to make Stellar's advanced features accessible and user-friendly for everyone, from seasoned developers to those new to the crypto space.

In an era where digital assets are rapidly gaining prominence, TokenGlade stands out by offering a comprehensive suite of tools that streamline the often complex processes associated with blockchain technology. Our platform empowers individuals and businesses alike, enabling them to create and manage their digital tokens on the Stellar blockchain with minimal technical knowledge.

At the heart of TokenGlade is our commitment to democratizing access to the blockchain. We believe that everyone should have the opportunity to participate in the growing digital economy, and our platform is built to facilitate this. By leveraging the power of Stellar's fast, secure, and low-cost blockchain, TokenGlade provides a user-friendly environment where creating and managing digital assets is as straightforward as possible.

Our native token, \$TKG, plays a central role in the TokenGlade ecosystem. It is used for all transactions on the platform, ensuring low fees and fast processing times. Additionally, \$TKG holders can benefit from our staking mechanism, which offers attractive rewards and encourages long-term participation in the ecosystem.

TokenGlade's intuitive interface and comprehensive feature set make it an ideal choice for a wide range of users, from those looking to create simple tokens for personal projects to businesses seeking to leverage Stellar blockchain technology for more complex applications. Whether you are looking to tokenize assets, engage in secure and efficient transactions, or

explore the possibilities of blockchain technology, TokenGlade provides the tools and support you need.

## 2. Vision and Mission

**Vision:** Our vision is that every individual can create and manage tokens on the Stellar blockchain and use other Stellar blockchain operations without any hurdles.

**Mission:** Our mission is to increase the number of tokens on the Stellar blockchain by providing a seamless, secure, and user-friendly platform that empowers individuals and businesses to create and manage digital assets effortlessly.

## 3. Platform Overview

TokenGlade is built on the Stellar blockchain, known for its speed, security, and low transaction costs. Our platform offers a comprehensive suite of tools designed to make Stellar blockchain operations simpler for users, enabling anyone to create and manage digital tokens with minimal effort and technical knowledge.

## 4. Key Features

**Easy Token Creation:** With TokenGlade, creating custom tokens on the Stellar blockchain is as simple as a single click. This feature removes the technical barriers often associated with token creation, making it accessible to everyone.

**Send Claimable Balances:** Users can send claimable balances individually or in bulk, streamlining the process of distributing tokens to multiple recipients efficiently and effectively.

**Upcoming Feature - Claim Back Claimable Balances:** In the near future, TokenGlade will introduce the ability to claim back claimable balances individually or in bulk, providing even more flexibility and control over digital assets.

**Staking & Rewards:** TokenGlade offers a robust staking mechanism where users can stake their \$TKG tokens and earn a substantial 15% APY, with rewards distributed daily. This incentivizes long-term holding and network participation, contributing to the security and stability of the ecosystem. A significant portion of \$TKG (70% of the total supply, equating to 35 million tokens) is allocated for staking, underscoring its importance in the TokenGlade platform.

## 5. Use Cases for TokenGlade (\$TKG)

### 1. Staking:

**Earn Daily Rewards:** Users can stake their \$TKG tokens and earn a substantial 15% APY, with rewards distributed daily. This means stakers receive approximately 0.0411% of their staked amount as daily rewards. This incentivizes long-term holding and contributes to the stability and security of the TokenGlade network

**Support the Ecosystem:** By staking \$TKG, users help maintain the security and efficiency of the TokenGlade platform, ensuring a robust and resilient ecosystem.

## 2. Payments for Using TokenGlade Features:

**Access Premium Features:** In the future, \$TKG will be the primary currency for accessing advanced features and services on the TokenGlade platform. This includes token creation, management tools, and other premium functionalities.

**Transaction Fees:** Users will utilize \$TKG to pay for transaction fees within the TokenGlade ecosystem, ensuring fast and low-cost transactions.

**Platform Services:** All future payments for services offered by TokenGlade, such as consulting, custom token solutions, and specialized tools, will be made using \$TKG.

These use cases ensure that \$TKG remains integral to the TokenGlade ecosystem, driving demand and providing value to holders and users alike.

## 6. Tokenomics

Total Supply: 50,000,000 \$TKG  
Staking: 70% (35,000,000 \$TKG)  
Team: 10% (5,000,000 \$TKG)  
Public Trading: 5% (2,500,000 \$TKG)  
Presale: 10% (5,000,000 \$TKG)  
Airdrop Rewards: 1% (500,000 \$TKG)  
Reserve: 4% (2,000,000 \$TKG)

Any remaining tokens after the presale will be burned, ensuring a deflationary supply model.

## 7. Staking and Rewards

TokenGlade offers a robust staking mechanism designed to incentivize users and enhance the overall stability and security of the platform. By participating in staking, users can earn attractive rewards, making \$TKG a valuable asset for long-term holding.

### Key Features of Staking and Rewards:

**Attractive APY:** Users can stake their \$TKG tokens and earn a substantial 15% Annual Percentage Yield (APY). This high return rate encourages users to hold and stake their tokens for extended periods.

**Daily Rewards Distribution:** Staking rewards are distributed daily, providing stakers with a steady stream of income. This means stakers receive approximately 0.0411% of their staked amount as daily rewards.

**70% Allocation for Staking:** A significant portion of \$TKG (70% of the total supply, equating to 35 million tokens) is allocated for staking. This allocation underscores the importance of staking within the TokenGlade ecosystem and ensures that there are ample rewards available for participants.

**Network Security and Stability:** By staking \$TKG, users contribute to the security and stability of the TokenGlade network. Staking helps to secure the blockchain and maintain the efficiency and reliability of the platform.

**Long-Term Incentives:** The attractive rewards structure promotes long-term holding and participation in the ecosystem, aligning the interests of users with the growth and success of TokenGlade.

Staking on TokenGlade is designed to be user-friendly, making it accessible even to those new to blockchain technology. By offering significant rewards and an easy-to-use staking mechanism, TokenGlade aims to build a strong, engaged community that supports the platform's long-term vision and mission.

## 9. Roadmap

### **Q3 2024: Initial Launch & Presale**

Token Creation on Stellar DEX: Official creation and listing of \$TKG tokens on Stellar DEX.

Airdrop (Only for 500 participants): Exclusive airdrop campaign for the first 500 participants.

Presale Announcement: Public announcement of the \$TKG presale dates and details.

Partnerships Announcements: Revealing strategic partnerships to enhance TokenGlade's ecosystem.

Presale Campaign: Launch and promotion of the presale to attract early investors.

Airdrop Reward Distribution: Distribution of airdrop rewards to eligible participants.

### **Q4 2024: Development & Initial Deployment**

Platform Development: Building the core TokenGlade platform infrastructure.

Features Development: Developing essential features for the platform.

Staking Feature Development: Implementing staking functionality for \$TKG.

Beta Testing and Security Audits: Conducting beta testing and security audits to ensure platform stability and security.

### **Q1 2025: Full Platform Launch**

Mainnet Launch: Official launch of the TokenGlade mainnet.

Website Launch: Launch of the official TokenGlade website with full platform features.

Staking Launch: Allowing users to start staking their \$TKG tokens and earn rewards

### **Q2 2025: Feature Enhancements & Growth**

Feedback Gathering from Users: Collecting user feedback to refine and improve the platform.

Advanced Features: Development and implementation of advanced features based on user feedback and market needs.

Global Expansion & Continuous Improvement: Expanding TokenGlade's reach globally and continuously improving the platform for enhanced user experience and performance.

## 10. Team

TokenGlade is driven by a team of experienced professionals who bring a wealth of knowledge and expertise in blockchain technology, software development, finance, and marketing. The team's diverse background ensures the success and continuous growth of the platform.

### Key Team Member:

Syed Zain Haider is a well-known software developer and crypto influencer leading TokenGlade. With a significant following on Twitter (@zainhaider332), he brings a deep understanding of the crypto market and a strong vision for the future of blockchain technology. His expertise and influence are instrumental in driving the platform's mission and engaging with the community.

### Our Expertise:

**Blockchain Technology:** Our team has extensive experience in developing and implementing blockchain solutions, ensuring that TokenGlade is built on a solid and secure foundation.

**Software Development:** We have a team of skilled developers who specialize in creating user-friendly and efficient applications, making sure that TokenGlade provides a seamless experience for its users.

**Marketing:** Our marketing team is dedicated to promoting TokenGlade, building partnerships, and growing our user base through strategic campaigns and community engagement.

TokenGlade's team is committed to delivering a platform that meets the needs of its users and supports the broader vision of democratizing access to the Stellar blockchain. With a strong leadership team and a dedicated group of professionals, TokenGlade is poised to become a leading platform in the digital asset space.

## 11. Conclusion

TokenGlade is poised to revolutionize the way digital tokens are created and managed on the Stellar blockchain. By providing a secure, user-friendly, and efficient platform, we aim to empower individuals and businesses to participate in the blockchain economy with ease. Our commitment to simplifying Stellar operations ensures that even those with minimal technical knowledge can leverage the full potential of blockchain technology.

With a strong emphasis on accessibility, security, and usability, TokenGlade offers a comprehensive suite of tools that cater to both newcomers and experienced developers in the

crypto space. Our robust staking mechanism, seamless token creation, and user-friendly features make TokenGlade a standout platform for anyone looking to engage with the Stellar blockchain.

Led by Syed Zain Haider and supported by a team of experts in blockchain technology, software development, finance, and marketing, TokenGlade is dedicated to fostering a vibrant and inclusive digital economy. Join us on our journey to transform the digital asset landscape and unlock new opportunities in the blockchain world.
